

TYPICAL HARDWARE LOCATIONS — Doors & Frames with 3 Hinges (1½ Pair)

TYPICAL HARDWARE PREPS

Chart 1

Door Opening Height	Dimension A
6'8" (2032mm)	29 15/16" (760mm)
7'0" (2134mm)	31 15/16" (811mm)
7'2" (2184mm)	32 15/16" (837mm)
7'6" (2286mm)	34 15/16" (887mm)

NOTES:

- 3 hinges (1 1/2 pair) are standard on 6'-8", 7'-0" 7'-2" and 7'-6" openings
- Steelcraft standard locations** - hardware preps (hinge and lock) with standard 3/4" undercut are located as illustrated above and as noted in chart 1.
- Special door undercuts** - hardware locations shown from the bottom of the door will be adjusted accordingly. Locations will be held from the top of the door.
- Special door heights** - Special door heights are available. Dimension "A" will vary accordingly.
- Refer to the hardware section of this manual for all hardware locations and most prep details.
